**BEND, Ore.** – Sept. 13, 2016 – [Riverhouse on the Deschutes](#) has achieved accolades for a newly reimagined website that draws visitors in to the experience of Bend’s iconic hotel. A recent \$10 million renovation of the property extended to its digital presence, and the redevelopment of the website has already garnered two prestigious awards: the 2016 WebAward for Outstanding Website and the Travel Weekly 2016 Silver Magellan Award.

“Our prime riverside location and views are what set Riverhouse on the Deschutes apart from other accommodations, and our website development team was able to translate the allure and natural beauty of our surroundings for online audiences,” said general manager Vernon Heitzenrader of Riverhouse on the Deschutes. “While beautiful to view, [riverhouse.com](#) is also functional and easy to use, whether booking an overnight stay or a table at Currents.
